Mr. Stagmaier pointed out the economic loss which would result from not allowing the soldiers at Chickamauga park to visit Chattanooga, as has been threatened, unless the woman question is handled more vigorously.

Chattanooga the car company would benefit as much as if the fare were raised to 5 1-2 cents.

Although no saving of coal would be effected locally, the electric current saved could be diverted to places where it is badly needed, such as Maryville and other places where government work is being carried on.

The board of commissioners unant-mously passed a resolution that the matter be taken up with the street railway officials. It was referred to Commissioner Herron.
